

Care about the Environment?

Weller and Adtool do and we want you to work with us to make it better. Weller and Adtool are committed supporters of actions that help to protect our environment and to conserve its natural resources. To this end, Weller is launching a recycling initiative for old, used soldering tips. By recycling the copper and iron from used tips, Weller can make a real contribution towards helping the environment and preserving its natural resources.

How will it work?

We want you to collect your worn out soldering tips, all types, from all manufacturer. Call us at Adtool (1-800-361-6727) and we will get you a collection box and shipping instructions to arrange for their environmentally safe recycling. This will benefit the environment but it will also benefit you because for every 2 lbs. of worn out tips you send to us you will receive a \$75.00 voucher to be used against your next purchase of Weller Brand tips with Adtool.

Get involved with Weller and Adtool! The environment will profit and so will you.
